## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not illustrate the following reference sign(s) mentioned in the description: references packets numbered 1, 3, 6, 11 and 20, and reference AMR 515 on page 6, lines 10-16. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

2. Claims 1-15 and 18-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claims 1-15 and 18-20 are rejected under 35 U.S.C 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject

matter which was not described in the specification in such a way to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 1, line 9, the limitation "steals at least one whole voice block" was inadequately described in the specification.

3. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 recites the limitation "said saved bits" in line 3. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Ching et al. (US 4,665,514).

For claim 16, Ching et al. disclose integrated voice/data network, comprising:

a controller (figure 1, reference CPU) for processing an algorithm for reducing a number of bits in a voice sample included in a packet to be transmitted (col. 5, lines 17-22) and using the reduced bits of the voice sample for transmitting header field data in

the packet, the terminal configured to transmit the packet in a digital packet-switched cellular network (col. 5, lines 51-56).

For claim 17, Ching et al. disclose further comprising a memory for storing and retrieving the algorithm (figure 2, reference 208-0, col. 7, lines 20-21).

### ***Response to Arguments***

6. Applicant's arguments with respect to claims 1-9 and 12-20 have been considered but are moot in view of the new ground(s) of rejection.
